## Innovation and Recognition

Summer school began on Monday, June 7th. We have approximately 200 students registered for various classes throughout the summer. We continue to offer a variety of classes to meet the needs and interests of our students. Band lessons, Drivers Education, Hunter's Safety, Wrestling, Basketball, Weight Lifting are a few specialized classes; the other classes consist of math and reading, games, cooking, crafting and much more. We are also partnering up with the library this year. Students have the opportunity to participate in the library events at the

park as well as walk to the library to check out books. Thank you to all the staff who help make our summer school program a success.
