**STRATEGIC PLANNING**

# What is Strategic Planning?

- A Strategic Plan is used to prioritize, focus resources, solidify operations, and ensure that all stakeholders are all working towards a common goal(s). This will eventually guide all decisions and actions and shape the future of the District.

# What is a Strategic Plan?

- A Strategic Plan is a fluid document that communicates the District's goals, priorities, and metrics that will be used to measure progress of the goals. It includes not only academics, but all aspects of the operation of the school district.

# Why Strategic Planning?

- Determine Stakeholder Needs
- Build Coherence and Cohesion within Initiatives
- Focus Resources on Maximizing Impact with Students
- Designed Structure for Purposeful Adaptation
- Goals, Measures, Action Steps

# Why Strategic Planning Fails

- Lack of Clarity
- Too broad/too many metrics
- No follow-through
- Not gathering stakeholder input(no buy-in)
- Not adapting to changes

# What is Operational Planning vs. Strategic Planning?

This is the yearly plan which focuses on the work of the district during the current school year. The operational plan is the vehicle that allows us to implement the strategic plan, including success metrics.

The operational plan is also fluid and should be consistently assessed to meet changing conditions. Through analyzation and adjustment, we bring greater coherence and alignment to our efforts in achieving our goals.

# Continuous Improvement Cycle

# Strategic Planning Proposed Timeline
