

Pittsville School District

Wi-Fi HotSpot Parental Consent Form

The Pittsville School District is offering a limited number of free wireless hotspot devices to students who have limited or no Internet access at home. This program enables students to connect their school device to the Internet—absolutely free. Connection and data usage fees are fully paid by the district. The program is intended to help Pittsville students access online resources at home for school work or school research purposes. ***Use by anyone other than students or for non-school purposes is prohibited. Streaming of music or video is not allowed.*** Internet access through these devices is available 24x7, and they utilize a CIPA compliant Internet content filtering service. The hotspots must be returned to the School District at the end of the school year, or upon request by the district.

Hotspots and their related components (cables, charger, etc.) must be returned fully charged, powered off, and in good condition. A replacement fee (about \$80 or its current replacement cost) will be charged if the device is lost, damaged or not returned.
