Child Care Center

**Director of Child Care Center Board Report**  
**January 13, 2019**

**Enrollment**

- We currently have 9 children enrolled in our infant/toddler room, ranging from 6-7kids in the room at a time.
- We have 18 children enrolled in our preschool program, averaging 9-12 children a day.
- We have a total of 28 children enrolled in our BASP program, averaging 10-13 children a night.

**Staffing**

- We are still short staffed in some areas and don't have an established sub pool for sick or vacation days of childcare staff. Most of the times are being covered by me or we work it out amongst the staff we have. We could potentially use ECE teachers within the district, if the times needed worked within their current schedules. We do have a couple people that have stated they would be substitutes but we are waiting for them to finish filling out the required paperwork to be added to our list.
- We have reposted our non-lead teacher position online and through local newspapers. We are hoping that we can pick up one more teacher to help in the preschool room and float in our other rooms as needed.
- Position to start in March/April as part time with potential for full time come summer.

**Infant/Toddler News**

- In December, we worked on making Christmas tree ornaments with our cute feet. We also played with a felt Christmas Tree and Snowman and got to put tons of fun decals on them. Our toddlers also worked on putting toys away and sharing with their friends! Around Christmas time we opened all of our presents from our parents and community members! Now we have cool new things to play with!

## Preschool News

- The month of December we were busy making gifts for parents, making fake snow, doing crafts. We even got to get outside and enjoy playing in the snow and building snowmen. The Dramatic Play center was changed to a Gingerbread Bakery where they got to pretend to make cookies and serve hot chocolate. The kids even got a surprise visit from the Grinch. We also had tons of fun sharing and opening gifts that were given to us by different families.

## BASP

- In our BASP room, our school age kids have had fun elf searching around school and setting elf “traps” with hopes of catching them with candies. On the warmer nights, we have been able to get outside and play in the snow or we head to the gym to burn off some energy. Right before Christmas break we got to have a holiday party with a movie and treats and opened donated presents for Christmas.
