12/21/20

Dear Pittsville School District Families and Staff:

We received information regarding one (1) identified positive COVID-19 high school student today. Close contacts of the positive case have been and are being contacted today, Monday, December 21.

The school will contact you on behalf of the Wood County Health Department if your child is considered a close contact of the positive case. If you are not contacted, your child is not a close contact and may continue attending school as scheduled. At this time, Pittsville School District will continue using the CDC recommended 14 day quarantine for identified close contacts post exposure to a positive COVID-19 case.

Staying healthy, and when you are not, staying out of the school environment is still the best way to keep the school open and avoid risks to others. We are looking forward to better times and will continue to do our part to make sure everyone is still with us to see them.

Please help to slow the spread of COVID-19 by remembering to do the following:

- Stay home when ill or a household member is ill and keep all household members home.
- Wear a face covering.
- Wash hands frequently with soap and water; hand sanitizer if soap and water are unavailable.
- Clean frequently used surfaces such as doorknobs, tables, etc...
- Limit unnecessary travel.
- Maintain physical distances of 6 feet from others as much as possible.
- Avoid large crowds or gatherings.

If you are symptomatic, you are presumed positive unless you receive a negative test result. If symptoms occur, please contact your medical provider to request free testing. You may contact the school office or the Wood County Health Department (715-421-8911) with questions.

Sincerely,

Rodney Figueroa

Pittsville School District has a COVID-19 Dashboard with current COVID-19 data on our website.
