PHS Board Report
Pittsville School District's Vision and Mission:

Vision:

Expecting Excellence and Innovation, Honoring Legacy, and Embracing Partnerships

Mission:

Expecting Excellence and Integrity from all, developing Innovative students, strengthened through Partnerships with parents and the community

1. Student and Staff Learning:

- a. Two junior students are already approved for the nursing assistant course through Mid-State Technical College will now be taking the course in Summer 2019 instead of during the school year due to conflicts with the class trip to Panama

2. Innovation and Recognition:

- a. It is appreciated that Mrs. Doering and Ms. Jones have accepted the advisory roles for the 6-12 Ski and Snowboard club on such short notice for the SY 18-19 season. They have been working hard to create a robust schedule that includes dates and locations to include the greatest number of students when considering the wide range of ages and abilities.
- b. The teaching staff at the High School is working hard to implement strategies into their instruction to support a growth model that uses technology to accelerate learning and provide all students access to the curriculum.
- c. The CTE academy is having another successful educational journey with the 8th grade class in the manufacturing and business marketing classes; thank you Mr. Hadfield and Mr. Rayburn.

- d. Ms. Jones and Mrs. Zickert have a co-taught High School speech course where they recently partnered with ten elementary school classrooms. The HS students practiced using tone and reading aloud skills before “presenting” to their younger audiences. The connections were very successful for both the little and big learners!
3. Looking Ahead:
- a. High School scheduling will begin in early to middle February
 - b. The High School is preparing for ACT testing on February 20 and Workkeys testing on February 21. Grades 9 - 10 and 12 will go on class field trips that day to provide a quiet environment for the juniors.
